

I was having a think about some of the activities we have enjoyed on a Friday and also during our music lessons.

Do you remember having fun back in September making our chocolate rocks to introduce our Science topic on rocks?

We learnt about all of the different kinds of rocks – Sedimentary, Metamorphic and Igneous. Can you remember any examples of these? Mrs Pettit has mentioned making our fossils, what fun we had with those. The coffee smell was wonderful!!

We also have completed some work on skeletons. How many parts of the skeleton can you remember? We had great fun predicting what we thought we would look like without a skeleton.

We learnt a song about bones – can you remember it? It was called Dem Bones and is based on the story of Ezekiel where the Prophet Ezekiel visits the Valley of Dry Bones and prophesies that the dead will one day rise again at the command of the Lord.

In music we have done many things including starting to learn how to play the recorder. We have learnt the notes A and B and you have done amazingly well with this. We have also learnt about the treble clef and crotchets and quavers (remember cheesy crisps!)

In music we have also learnt many songs. We have learnt topic songs about The Stone Age, we learnt We're Walking in the Air and may others. One of your absolute favourites was I Like Books. Maybe you could have ago at singing it with the link below.

In class we have been reading Martin's Mice a favourite of mine. We have not managed to finish it but I wonder if you can predict what might happen at the end? If you really en joyed this book maybe you could try to find it and finish it.

Have you enjoyed reading a new book during this time of learning at home? What new book have you found?

Take care, keep safe.

Mrs Winfield
