

Spalding Parish Church of England Day School

26th November 2020

Dear Parent/Carer,

Year 2 – National Space Centre – Ask an Expert

In Year 2, we have been learning all about famous astronauts who have made an impact both in the past and the present day. We have been learning about Neil Armstrong and how his moon landing changed space exploration. We have also been learning about Tim Peake and his contributions to how space exploration continues to develop and advance. Throughout our lessons, the children have been asking questions and trying to find the answers to these using a range of sources e.g. photographs, newspaper cuttings and video footage.

In order to further enhance our learning, we have been able to secure a session with the National Space Centre where we can ask an expert all of our questions! This is a fantastic opportunity and we have managed to secure a booking for **Thursday 3rd December**. Whilst we appreciate this is short notice, booking special events in the current climate has proved a little more complicated.

During this time, the children will be able to ask the experts at the National Space Centre questions that they have. We will make notes and then create our own fact files showing everything that we have learnt this term.

For the virtual visit to go ahead, we ask that you make a voluntary contribution of £1.50 via WisePay by **Wednesday 2nd December**.

If you have any questions, please do not hesitate to ask. We look forward to this exciting learning opportunity visiting our school once again.

Yours sincerely

Annabel Cooper
