

What is Family Learning?

Family Learning is a nationwide programme that provides free courses and workshops for parents/carers to support their children with learning at home. Our tutors' plan activities which focus on supporting children, making resources and trying out activities that are easily replicated at home, helping parents gain confidence in their own ability to support their child and provide the opportunity for children to achieve more.

Our team of tutors deliver a range of free courses in schools, community venues and online. The programmes are flexible, friendly and fun. Whether you want to develop parental engagement or meet Ofsted criteria, we work with you to plan a family learning course that suits your school's needs.

Want to know more?

Join us at one of our information sessions and talk to one of our project officers to find out how Family Learning will work for you and your school.

Or contact anita.pritchard@lincolnshire.gov.uk to arrange an appointment at a time convenient to you.

We can also support those adults who want to improve their own skills with a route back into education as confidence in their own abilities builds. With a focus on improving English, maths, IT and health and wellbeing for families across the county, we offer adult-only qualification courses and routes into further/higher education, volunteering and employment.
