

# The Great American Road Trip

## Maths

Maths will focus on fractions and decimals. We will be continuing the use of Times Table Rock Star to help rapid recall up to 12 x 12 and introducing children to daily arithmetic challenges. Be sure to check Maths Meanders for these challenges.

## Geography

Geography will see us looking at North and South America, locating the countries and concentrating on their environment regions, key physical and human characteristics, countries and major cities.

## English

We will begin our trip with 'The Man between Two Towers', following on from which, we will take 'A Walk in New York'.

After stopping at these two destinations, we will journey into a 'World of Food'.

All of these exciting texts will enable us to take advantage of many writing opportunities.

## RE

Being Human - Christianity

## Science

Science will see us look at 'forces' and how unsupported objects fall towards the Earth because of the force of gravity. We will also explore the effects of water, air resistance and friction. Moving on to recognising that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.

## PSHE

Be Yourself!  
(because everyone else is already taken!)

## Computing

After the successful creation of websites in Term 1 and 2 we will be moving onto looking at how we can stay safe online.

## Art

Great architects in History and landscapes.

Our door is always open to discuss any worries or celebrate successes.

It's the learning journey that matters, not the destination...
