

Y6

Terms

3 & 4

Maths

In Maths, Y6 will continue to develop their understanding of fractions, decimals, percentages and units of measurement. There will be a continued focus on arithmetic skills, which they will then use to solve reasoning and problem solving activities.

Check out their Maths Meanders for their daily challenges.

Science

Term 3 - Animals including humans.
Term 4 - Living things and their habitats.

RE

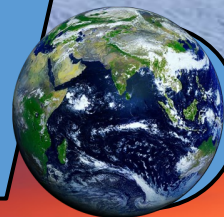

Life Journeys
Hinduism and Islam

DT

Healthy food based through our Science work.

Our World

English

Our door is always open to discuss any worries or celebrate successes.

We will be completing our WWI study by writing a narrative based on their learning. Our focus will then be on fiction and non-fiction writing where children will engage in high quality texts such as: *Can you save the Tiger?* *William Blake Poetry* and *Shackleton's Journey* etc.

We will also use the Guardian short film 'The Three Little Pigs' to develop a range of writing opportunities. The skills learnt will be applied to the children's curriculum work.

Computing

Online Safety
Internet Safety Day - Tuesday 11th February.

PE

High Five Netball
Dance

Geography

We will be extending our knowledge and understanding beyond our local area to identify the position and significance of climate and time zones. Watch out for our 'Weather Watchers!'

Music

Composing and performing our own songs.
