# The World's Continents

- Europe
- Africa
- North America
- South America
- Asia
- Antarctica
- Australia

## The World's Oceans:

- Pacific
- Atlantic
- Indian
- Southern
- Arctic

## Key Facts

The United Kingdom is in Europe.  
Kenya is in Africa, Europe and Africa  
are continents. The United Kingdom  
and Kenya are countries. The capital of  
Kenya is Nairobi. Both the UK and  
Kenya are made up of villages, towns  
and cities. Kenya and the UK have  
different climates because of their  
location to the Equator.

Human and physical features are represented on a map using symbols. The map key lists the symbols with their meaning. A map uses compass directions; North, East, South and West. To describe the location of a feature or place, directional language is used (near, far, left, right, above, below).
