

Spalding Parish Church of England Day School

7th June 2022

Dear Parent/Carer,

Science Week 13th – 17th June 2022

In the past, we have held an annual Science week in school where all children from EYFS to Year 6 have taken part in a range of Science activities based on a theme. We are pleased to say that this year, we will be holding a Science week again from Monday 13th until Friday 17th June. The theme for the week is Environmental Explorers and we will be looking at ways we can all make a difference to looking after our planet.

To finish the week, we will once again be holding a family challenge activity, where parents/carers are invited into school to complete a challenge with their children. This will be from 1.45pm until 3pm on Friday 17th June. The challenge this year is to 'make something useful from your junk!' Could you please send in your recycling to school for us to be able to use: kitchen roll middles, cardboard boxes, plastic bottles, packaging, bubble wrap etc. will all be very useful. Please check that any cereal boxes have not held products that contain nuts as we do have children with allergies in school.

Parents/carers should go to the classroom of their eldest child, who will collect any younger siblings so you can work together as a family. Hopefully if the weather is nice, some people can work outside the classrooms as well. Please enter the site by the side gate (down the Cowpath) or the back gate (by KSI playground).

If you could please let us know if you will be coming to the Family Challenge afternoon by completing the slip below, it will make organisation much easier for us.

Children whose grown ups are unable to come will still complete the challenge working with adults from around school.

We look forward to an exciting week of Science learning.

Kind regards,

Claire Hearth
